

DBOY18 Regional Optimisation Day Biosecurity Requirements

Dairy Business of the Year takes biosecurity very seriously and requires all visitors attending the Regional Optimisation Days to follow strict protocols before and during the on-farm event.

Before registration all intending visitors must read and agree to the following field day attendance terms and conditions. For online registrations, you must tick the box acknowledging you have accepted these terms and conditions. When registering for other attendees (e.g. employees or colleagues) you accept these on their behalf and must inform them of the biosecurity requirements:

- i. Visitors must arrive with clean equipment, clothing and footwear;
- ii. Upon arriving at the designated car park visitors must go immediately to the registration desk to complete the registration process;
- iii. All visitors must disinfect their footwear using the provided footbaths;
- iv. DBOY reserves the right to deny field day attendance if the biosecurity terms and conditions are not adhered to.
